LiftMaster

POWERED BY myQ

CAPAC

Smart Access Hub

The CAPAC Smart Access Hub provides communities an affordable cloud-based option to monitor and control access points without needing to upgrade the entire system. Adding the myQ Community app to the monthly subscription lets residents unlock access points for themselves and their guests, giving them easy access, sophisticated security and reliable service.

myQ
COMMUNITY

Cloud-based access management

The myQ Community cloud-based web platform lets you conveniently manage and control multiple access points across all communities in your portfolio from a single dashboard. And when combined with the myQ Community app you will be able to easily add/delete residents, assign access to specific myQ Community connected entrances and receive real-time activity alerts to help you maximize efficiency and improve operations.

***May require addition of myQ Community app licenses.

Provide credentialed access

Add myQ Community app licenses to your subscription to track who is entering your community.

Open from anywhere

Assigning myQ Community app licenses to residents lets them unlock entrances for themselves or visitors right from their smartphone.
