

DCM-25

High Security Vertical Pivot Gates

Durable, Secure Commercial Entryways

DCM-25 115 volt AC with DC battery backup

Tilt-A-Way vertical pivot gates are designed to meet the security and aesthetic objectives for all commercial security requirements. Engineered to withstand severe weather and high winds, Tilt-A-Way represents the unparalleled security expertise and commitment to quality required by discriminating installations such as airports, military, FAA, municipalities, nuclear plants, courthouses, gated communities, mini storages, and residential properties.
